

# ROCKY FLATS ENVIRONMENTAL TECHNOLOGY SITE REGULATORY CONTACT RECORD

---

**Date/Time:** August 28, 2001 10:00 a.m.

**Site Contact(s):** Ted A. Hopkins  
**Phone:** 303-966-7652

**Regulatory Contact:** James Hindman  
**Phone:** 303-692-3345

**Agency:** CDPHE

---

**Purpose of Contact:** Approval to use Room 131 in B776 for repack, packing, sampling and venting of used oils.

---

## Discussion

In a phone conversation conducted August 28, 2001, James Hindman, CDPHE, approved the use of Room 131 in Building 776 for the following activities:

- Staging of used oil containers during repack/packing operations;
- Repack legacy waste oils;
- Packing of oils into lab packs (Most of the oils for packing will come from Room 130B);
- Sampling of waste oils; and
- Venting of oils during repack operations (if required).

The purpose of these operations is to generate compliant waste packages for shipments either to B771/774 for treatment using Nochar or for off-site treatment/disposal. It is anticipated that TRU/TRM oils will be the predominate waste stream being managed in Room 131. However, analytical data may result in changing our initial classification of TRU/TRM to LLW/LLM.

No oils will remain in Room 131 for more than 24 hours.
